

PRANALI LONDHE

AI/ML Engineer · Machine Learning Engineer · Python Developer

+91 8767135572 | pranulondhe381@gmail.com | [LinkedIn](#) | [GitHub](#) | [Hugging Face](#)

PROFESSIONAL SUMMARY

Results-driven AI/ML Engineer and 2026 graduate (AI & Machine Learning, Savitribai Phule Pune University, CGPA 9.50/10.0; AIR 13,126, AINCAT 2026) with hands-on industry experience at Infosys and IBM. Skilled in Machine Learning, Deep Learning, Computer Vision, and Natural Language Processing (NLP), with proven ability to design, train, and deploy production-ready ML models and end-to-end AI applications across BFSI and healthcare domains. AWS-trained cloud professional with strong foundations in Python development, predictive modeling, data preprocessing, model evaluation, and enterprise-grade software engineering practices.

TECHNICAL SKILLS

- **Programming Languages:** Python, Core Java, SQL
- **Machine Learning & AI:** Scikit-learn, TensorFlow, Supervised Learning, Logistic Regression, Random Forest, KNN, SVM, Decision Trees, Naive Bayes, Linear/Multiple Linear Regression, Predictive Modeling, Feature Engineering, Model Evaluation, NumPy, Pandas
- **NLP & Computer Vision:** Tesseract OCR, Image Processing, Text Summarization, LLMs, Multi-language Text Processing
- **Cloud & DevOps:** Amazon Web Services (AWS), Google Colab, Kaggle, Git, GitHub
- **Databases:** MySQL, MongoDB
- **Frameworks & Tools:** Streamlit, Hugging Face, Android Studio, Apache NetBeans, VS Code, PyCharm, Eclipse
- **Operating Systems:** Ubuntu (Linux), Windows
- **Soft Skills:** Leadership, Teamwork, Communication, Project Management, Agile Practices

PROFESSIONAL EXPERIENCE

ServiceNow University Virtual Intern (FY26 Cohort 5) *June 2026 – July 2026*

- Participating in an AICTE-recognized virtual internship delivered by ServiceNow in collaboration with SmartBridge.
- Gaining hands-on exposure to ServiceNow platform fundamentals, workflow automation, and enterprise IT Service Management (ITSM).
- Completing structured learning modules, assessments, and hands-on exercises as part of the program curriculum.

AI Intern — BFSI Project | Infosys *Feb 2025 – Mar 2025*

- Developed and deployed AI/ML solutions in the BFSI domain using the Infosys Springboard platform, applying supervised learning to real-world financial data workflows.
- Collaborated cross-functionally in an Agile team environment to deliver project milestones and improve digital process automation.
- Gained enterprise-level exposure to SDLC, code reviews, and industry-standard engineering methodologies.

Amazon Cloud Mentee — She Builds Program | Amazon Web Services (AWS) *Nov 2024 – Feb 2025*

- Completed a competitive 12-week AWS mentorship program focused on cloud computing fundamentals, technical career development, and closing the cloud skills gap for women in technology.
- Attended weekly live training sessions covering core AWS services, cloud architecture, and deployment strategies applicable to AI/ML production environments.
- Built practical cloud knowledge within a community-driven cohort, applicable to scalable AI/ML model deployment on AWS infrastructure.

Software Engineering Trainee | Infosys *Jul 2024 – Sep 2024*

- Completed an intensive 8-week structured training program covering technical and behavioral competencies aligned to enterprise software engineering standards.

- Built foundational expertise in software engineering, digital technologies, and professional development through offline mentoring and guided project work.

KEY PROJECTS

[AI Agents Portfolio](#) | *Python, Hugging Face, NLP, LLM, Transformers*

- Published production-ready AI Agents on Hugging Face, including a Transformer-based AI Text Summarizer with multi-domain support (news, research, business) and configurable output length/style; built with modular, scalable, clean-API architecture.

[BFSI OCR System \(AI-Based\)](#) | *Python, Tesseract OCR, MongoDB, Streamlit, Computer Vision*

- Architected and deployed a production-ready OCR system for financial document extraction, classification, and analysis with multi-language support (Hindi, Marathi, Chinese, Japanese), MongoDB storage, and a real-time Streamlit analytics dashboard.

[Brain Tumor Detection System](#) | *Python, Scikit-learn, Logistic Regression, Random Forest*

- Built an end-to-end ML classification pipeline (preprocessing, feature engineering, hyperparameter tuning, evaluation) to detect brain tumors from medical imaging with high validation accuracy.

[Heart Disease Prediction](#) | *Python, Scikit-learn, Streamlit, KNN*

- Built a KNN-based ML web app predicting heart disease with 88% accuracy; deployed a real-time Streamlit interface after data preprocessing and feature scaling.

[Wine Quality Prediction](#) | *Python, Scikit-learn*

- Built a wine quality classification model with EDA and feature scaling; compared Logistic Regression, KNN, Naive Bayes, Decision Tree, and SVM, achieving 86% accuracy.

[Ford Car Price Prediction](#) | *Python, Scikit-learn, Linear Regression*

- Developed a Linear Regression model to predict used Ford car prices using feature encoding (One-Hot, Label), feature scaling, and exploratory data analysis.

[Medical Insurance Cost Prediction](#) | *Python, Scikit-learn, Multiple Linear Regression*

- Built a Multiple Linear Regression model predicting insurance charges using statistical feature selection (Pearson Correlation, Chi-Square Test); achieved an R^2 score of 0.80.

EDUCATION

Bachelor of Engineering — Artificial Intelligence & Machine Learning 2023 – 2026

Savitribai Phule Pune University · CGPA: 9.50 / 10.0

Diploma — Computer Science Engineering 2020 – 2023

Maharashtra State Board of Technical Education (MSBTE) · 80.20%

Secondary School Certificate (SSC) 2020

Maharashtra State Board · 83.40%

CERTIFICATIONS & ACHIEVEMENTS

- All India Rank 13,126 — AINCAT 2026, showcasing strong analytical, reasoning, and quantitative aptitude skills
- Infosys Springboard Cohort 2 — Certified AI/ML Practitioner
- IBM SkillBuild (Edunet Foundation) — AI/ML Certification
- Amazon Web Services (AWS) She Builds Program — 12-Week Mentorship Completion Certificate
- Flipkart Girls Wanna Code 6.0 — Certified Participant
- Google Women Techmakers — Active Member
- Barclays Soft Skills Rubicon — Certified Professional
- Analytics Vidhya — Hackathon Winner
